### CHILD ABUSE AND NEGLECT

Each school principal shall implement an instructional program based on needs that will teach students:

1. How to recognize the factors that may cause people to abuse or neglect;
2. How one may protect oneself from experiencing abuse or neglect; and
3. What resources are available to assist an individual who does or may encounter an abusive or neglectful situation.

To facilitate such a program, staff will receive training regarding reporting obligations during their initial orientation and every three years after initial employment. Training may include such topics as:

1. Child growth and development;
2. Identification of child abuse or neglect;
3. Effects of abuse or neglect on child growth and development;
4. Personal safety as it relates to potential child abuse or neglect;
5. Parenting and supervision skills;
6. Life situations/stressors which may lead to child abuse or neglect; and
7. Substance abuse.

### Reporting Responsibilities

Staff are required to report every instance of suspected child abuse or neglect

The following procedures are required when reporting instances of suspected child abuse or neglect:

- A. When there is reasonable cause to believe that a child has suffered abuse or neglect, staff or the principal will orally report it to the nearest office of the Child Protective Services (CPS) of the Department of Children, Youth, and Families (DCYF) or local law enforcement agency. This contact must be made within forty-eight (48) hours after there is reasonable cause to believe that the child has suffered abuse or neglect.

Staff will also advise the principal regarding instances of suspected abuse or neglect as well as reports that have been made to CPS or law enforcement. In the principal's absence, staff will advise the nurse or counselor.

A staff member may contact CPS to determine if a report should be made. Any doubt about the legal necessity of making a report will be resolved in favor of making the report.

- B. A written report will be submitted promptly to the agency to which the oral report was made. The report will include the following information, if known:

1. The name, address, and age of the child;
  2. The name and address of the child's parents, stepparents, guardians, or other persons having custody of the child;
  3. The nature and extent of the suspected abuse or neglect;
  4. Any evidence of previous abuse or neglect, including the nature and extent;
  5. Any other information that may relate to the cause or extent of the abuse or neglect; and
  6. The identity of the person accused of inflicting the abuse.
- C. When the district receives a report that a school employee has committed an act of sexual misconduct, it will notify the parents of the alleged victim at the first opportunity but in all cases within forty-eight (48) hours of receiving the report. The notice will include information regarding their rights under the public records act, chapter 42.56 RCW, to request the public records regarding school employee discipline. This information shall be provided to all parents on an annual basis.
- D. Child abuse as defined by the statutes can be inflicted "by any person" and may include student-on-student abuse. These cases also require reporting to CPS or law enforcement.

- Is overly compliant, passive, or withdrawn.
- Comes to school or other activities early, stays late, and does not want to go home.

#### **The parent or other adult caregiver and the child:**
